Subject: Application For "Software Engineer"

Dear Sir,

I am writing to express my interest in the position of " DevOps Engineer"
that you published. Besides a Bachelor Degree in Computer Science and
Engineering, I also have hands-on experience for making several web
application using Python Django, C++ and also have some basic idea about
JavaScripts and complated thesis using machine learing that may be
helpful for this position.

During my graduation time, I handled different kinds of projects, which give
many challenges. I extremely enjoyed programming because I believe that
programming can helps a lot for a software developer. Here, I different
kinds of techniques which makes success to your organization.

Your listed requirements closely match my background and skills. A few I
would like to highlight that would enable me to contribute to your
organization are:

● Have some programming Knowledge and participated several
  programming contest.
● Eagerness to learn.
● Ability to work in a team and independently.

For my analytical and real-life problem-solving skills, I led several Project
teams and that team make successful software completion.

So, I have attached a copy of my resume that details my projects. I look
forward to an opportunity to discuss my potentiality about project to your
developer team. For any Further information you can reach me anytime via
my phone: **+8801623670587** or email: **17103272@iubat.edu**

Sincerely.

Md. Abir Hasan
